PROFILE

I am a Cybersecurity and Software Development student with a strong focus on ethical hacking, software engineering, and UI/UX design. I create digital solutions that are both functional and secure, ensuring users have safe and intuitive experiences. I enjoy problem-solving, building efficient systems, and continuously exploring new technologies. I am also an active volunteer, participating in programs and events to contribute to my community while developing teamwork and leadership skills.

WORK EXPERIENCE

GETEX Dubai
30 APR - 2 MAY/2025

Volunteer/Exhibitor

Promoted academic programs offered by the university, engaging with diverse attendees and enhancing communication and public speaking skills.

World Ai Expo | Golden Tree Awards
13 MAR - 15 MAR/2025

Volunteer

Volunteered at the World AI Technology Expo 2025 in Dubai, assisting with event coordination, logistics, and guest management for global technology leaders and government officials. This role provided direct insights from industry experts and helped expand my professional network within the AI and tech sectors.
